AN ARCHITECTURAL MASTERPIECE REIMAGINED

Welcome to Lakewood, where we are redefining expectations. This is the rare property that seamlessly blends the historic gravitas of a classic original Tudor facade with the stunning, deliberate drama of a modern home. The complete transformation, spearheaded by Architect Paul Jankowski, AIA in association with Jay Magee several years ago, introduced clean modern interior lines that create an unparalleled sense of light & space.

Step inside & feel the atmosphere shift. The generous, open concept living areas are immediately inviting, anchored by a truly spectacular chef's kitchen. This space features a commanding double island, offering maximum prep space & casual seating, all surrounded by a top-tier built-in appliance package. Skylights are intentionally placed throughout the home, drawing in natural light & highlighting the architectural detailing.

LAKEWOOD AT ITS FINEST

The floor plan is exceptionally well thought out for today's lifestyle. It boasts four large bedrooms & three full, one half baths. Convenience is key with a dedicated, sun drenched office space for your professional pursuits. The main level hosts a secluded first floor guest suite, perfect for in laws or visitors who need easy access. The upper level is crowned by the magnificent, private treetop master retreat. This space truly feels like a getaway, offering peace & tranquility high among the neighborhood canopy.

Price Upon Request

4 Bedroom | 4.1 Bath | 4220 Square feet

Our ethos is honoring the artistry of living, which drives our passion for transforming what it means to buy or sell properties. As local, experienced brokers, we are passionate about serving our clients-helping them find the spaces they call home and communities that reflect their lifestyles. When we represent our sellers, we share the beautiful artistry of their homes, both the unique qualities of their architecture and their neighborhoods.
